Feedback and evaluation

Developing the tutorial

Skills®
library

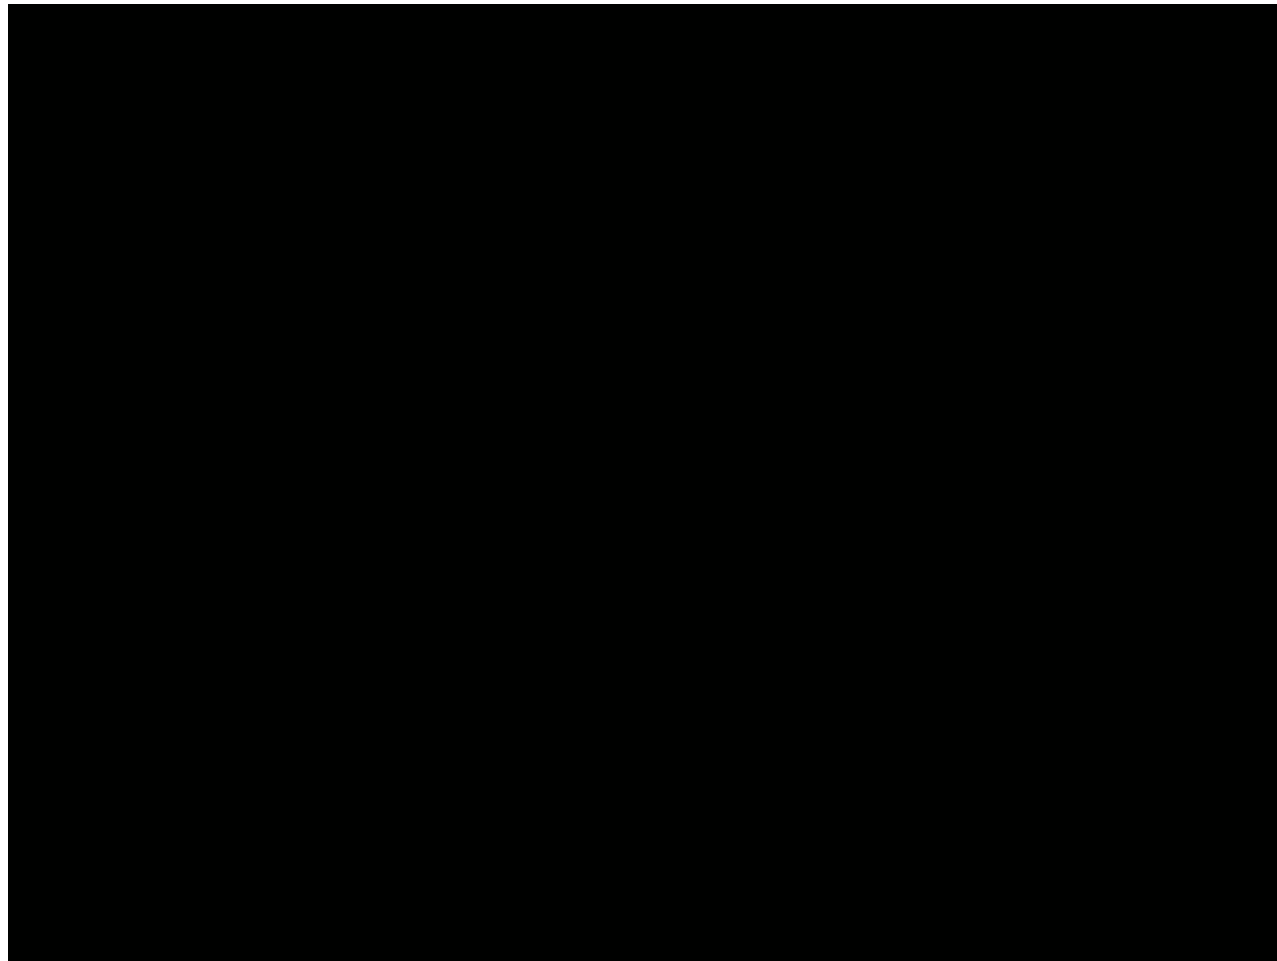

Effective note-taking whilst reading

- Use keywords
- Use your own words to explain ideas
- Don't look back at the original source when writing about it
- Write down the details of the reference you are using in your notes
- If you write out a direct quote put it in quotation marks and include the page number it came from

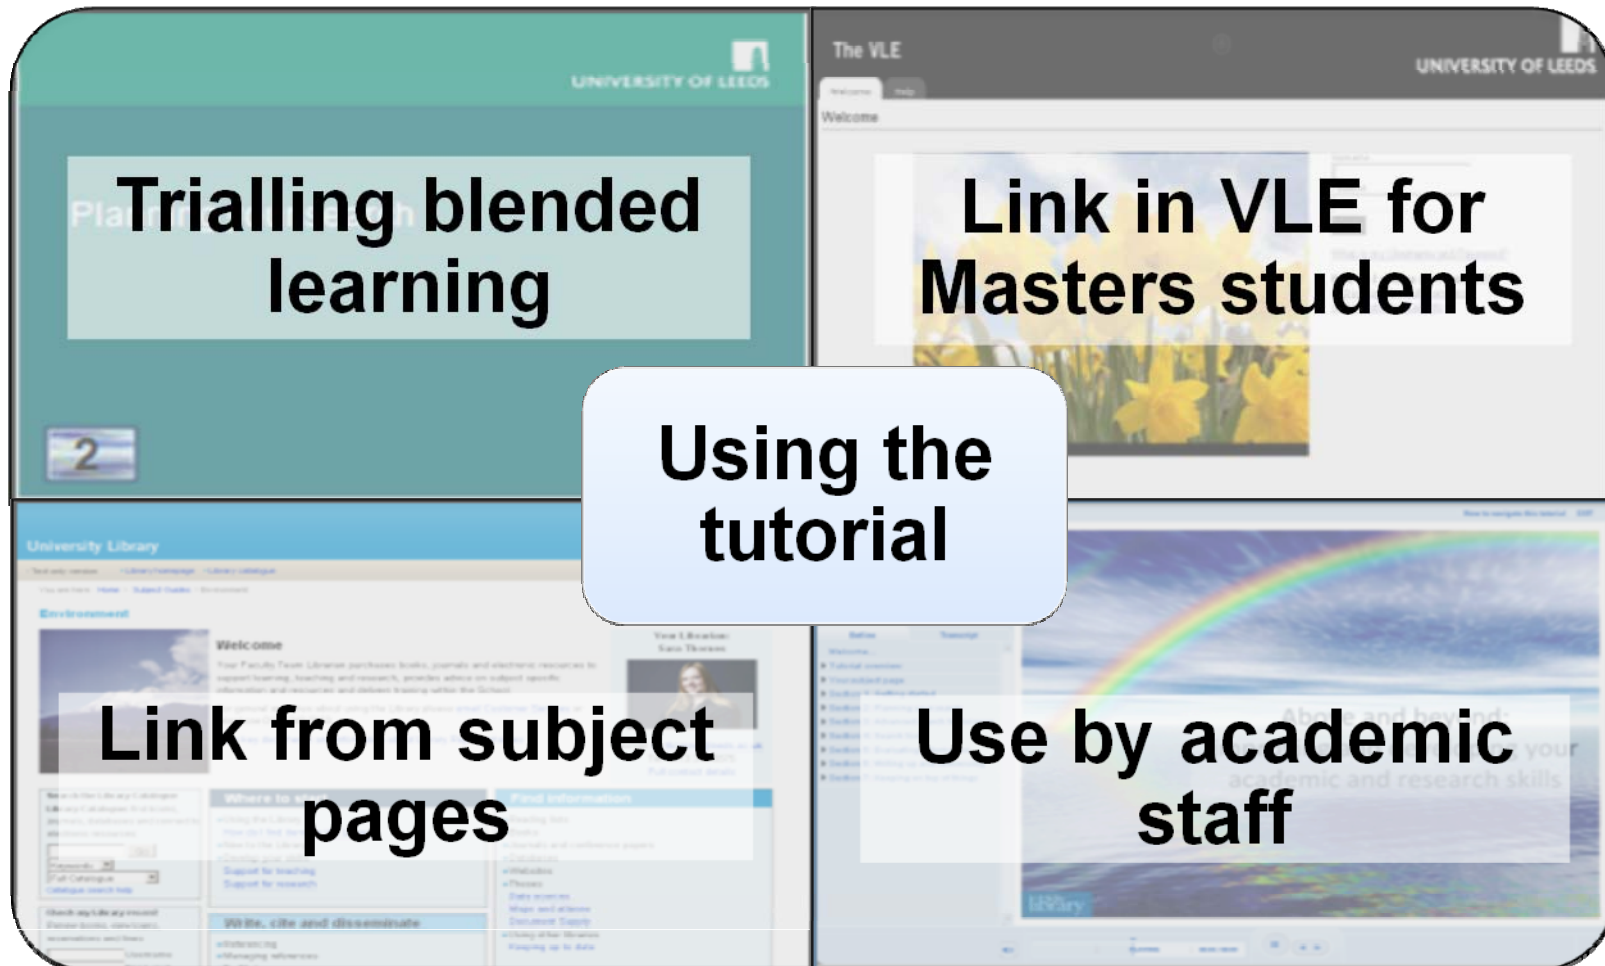

Working with an e-learning technologist

The finished product...

Trialling blended learning
